**Leaders in Corporate Entertainment, Action New Zealand is one of New Zealand's largest Mobile Entertainment Companies and are based in Rotorua.**

We are located at " THE SHORT GOLF COURSE" which is equipped with a Clubhouse and Bar plus a fully themed Marquee, and Catering Facility. While based in Rotorua, Action New Zealand also travels throughout New Zealand, as most of our activities are fully mobile. All this coupled with our central city location make us the ideal venue to either host your next event or just visit to partake in our huge range of activities.

With our innovative and creative approach and a large range of activities to offer, we are able to reduce the number of sub-contractors required to host events, and this in turn reduces costs while increasing financial control over your event budget.

We work with many of the local and out of town activity and accommodation operators when required, providing

- Team Building
- Team Development Programmes
- Feature Conference Openings,
- Facilitation and Co-ordination of conferenced and incentive events

We are able to offer a much larger range of products including

- quad biking
  - a confidence course
  - jet boating
- and many more.

### TAUPO LOOKOUT

Lake Taupo is not always recognised as a volcano, yet its history has been fiery and violent. A total of 28 eruptions in the past 27,000 years have occurred, however the majority of these have only been small. The most recent Taupo eruption was 181AD, view the magical Lake Taupo and the three volcanic mountains of the central North Island and beyond.

### HUKA FALLS

New Zealand's most visited natural attraction. Every second, Huka Falls is flushed with 250,000 cubic metres of water. The pressure shoots the water out over 8 metres and down into a beautifully coloured pool. The Maori word Huka means 'foam', and this is a most appropriate descriptor for the dramatic rapids that shape the largest falls on the Waikato River.

### WAIRAKEI STEAM FIELD

The Wairakei power station is the second power station in the world to turn natural steam into energy. Wairakei was however the first power station to utilise wet steam energy. The Wairakei power station runs at 95% capacity, and supplies around 3.5% of New Zealand's power.

### NEW ZEALAND RIVERJET

Jet boat down the Waikato River through the spectacular Tutukau gorge where the canyon walls rise dramatically up to 50 metres above the water and hear the tales behind past events. On the return journey experience the iconic ability of a Hamilton jet boat as our experienced driver/guide thrill you with 360 degree spins.

### ORAKEI KORAKO

Cross the beautiful Waikato River between Rotorua and Taupo and discover Orakei Korako Cave and Thermal Park. Also known as the Hidden Valley, Orakei Korako is a unique visitor attraction – not to be missed. It's a geothermal wonderland, one of nature's true gifts.

Geothermal Delights >> Jet Boating >> Personalised Commentary

## TOUR DURATION - 5.5 HOURS

8.30am Pick-up from Rotorua accommodation.

- Scenic drive through lush farmland to Rainbow Mountain.
- Short bushwalk to Crater Lake to view an explosion crater against a backdrop of bare brown, orange and red steaming cliffs.
- Boiling Mud Pools.
- NZ Riverjet 35 minute scenic trip.
- Orakei Korako Geothermal Wonderland. Come and explore a world of gushing geysers, hot springs, bubbling mud pools and some of the largest and most amazing silica terraces in the world.

2.00pm Drop-off in Rotorua

### >>> RAINBOW MOUNTAIN

The Maori name for Rainbow Mountain is Maungakakamea, meaning 'mountain of coloured earth'. It is easily recognised by its coloured slopes and its unusual rounded knob on the top, known as Tihi-o-Rua, 'the owls perch'. From its volcanic origins, the mountain has cooled over recent years, although in places it is still visibly smouldering.

### >>> MUD POOLS

In 1925 New Zealand's largest mud volcano was eroded by heavy rain. The vigorously active mud pools now occupying the site provide one of the best opportunities to photograph and experience the unique character and sounds of erupting mud. It is an ever active and changing landscape and very soothing for eroded urban nerve endings.

### ROTORUA SITES

**Government Gardens** - created in the 1890s. A series of ponds and a border of evergreen azaleas of immense size are of interest but the main display is from annuals, bedded out on the green lawns. A rose garden is kept in immaculate order. Recreational areas occupy the some of the garden while around the perimeter of the area are the historic Bath House, 1908, New Zealand's first major investment in the fledgling tourist industry, and the magnificent restored art deco Blue Baths building.

**The Redwoods** - famous for its magnificent stands of towering Californian Coastal Redwoods.

**Kuirau Park** - occupies an area of geothermal activity typified by many hot springs, gas and steam upflows, thermally altered ground and silica deposits from prehistoric times.
